

Those who
invest in machinery today
in Europe choose Biesse.

Pesaro, 15th January 2015 - What the European financial market has been demonstrating, even as early as the last quarter of 2014, is a continuously growing interest in machinery companies like Biesse, whose market value is registering a trend that goes way above every expectation. 2015 began in this same positive light, in spite of all of the adversity and financial tension still present on a global level, showing an elevation that has been favoured in particular by the chronic weakness of the euro. This weakness significantly benefits exportation and Biesse can't be anything but advantaged in terms of market penetration, being as it is an international Group that exports almost 90% of its sales volume.

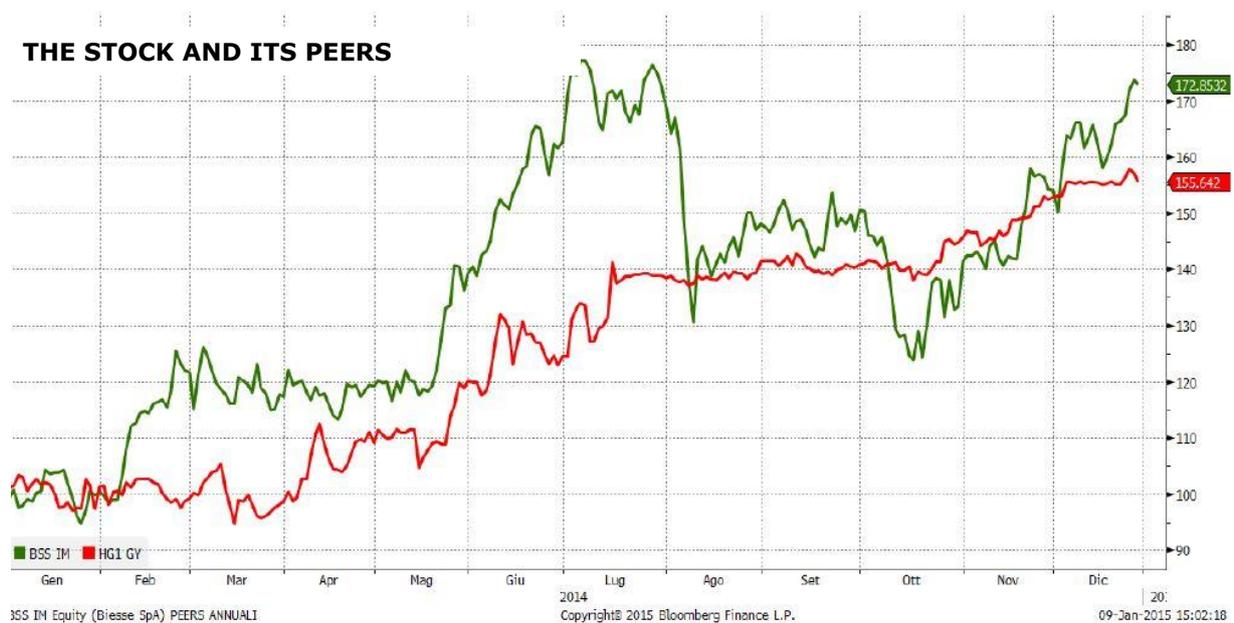

STOCK AND INDICES IL TITOLO E GLI INDICI

The business and industrial activities completed by Biesse in the last 18 months have transmitted trust to the financial markets, inspiring a more widespread optimistic perception which supports an upswing in the demand for durable goods.

Biesse Group

Biesse Group is a multinational leader in the technology for processing wood, glass, stone, plastic and metal. It designs, manufactures and distributes machines, integrated systems and software for manufacturers of furniture, door/window frames and components for the construction, ship-building and aerospace industries. It invests on average 14 million Euros per year in R&D, boasting over 200 registered patents. It operates through 8 industrial sites, 30 branches, 300 agents and selected dealers, exporting 88% of its production. Its customers include some of the most prestigious names of Italian and international design. Founded in Pesaro in 1969, by Giancarlo Selci, the company has been listed on the Stock Exchange (STAR segment) since June 2001. Now counts 2800 employees throughout the world.
