**The Legislative Decree of 25/2016 as acknowledged by EU Directive 2013/50/UE (incorporating the amendments of the preceding EC directive 2004/109/CE, known as the Transparency Directive) has eliminated the obligation on publicly quoted issuers registered in Italy to publish interim management reports and has attributed to CONSOB the authority to request the aforementioned issuers to publish "periodic additional financial information". To that end CONSOB has issued Article 82-ter of the Issuers' Regulations -which came into effect on 2 January 2017- which allows issuers, on a purely voluntary basis, to continue to communicate to the public periodic additional financial information regarding the annual and six monthly financial reports. However, issuers listed in the STAR segment of the automated market (MTA) are required by Stock Exchange regulations to adhere to additional obligations of transparency regarding information, liquidity and governance. In particular Article 2.2.3. paragraph 3 of the Regulation requires issuers listed in the STAR segment to issue interim management reports to the public. Notice no. 7587 issued by Borsa Italiana on 21 April 2016 clarified that Article 2.2.3. paragraph 3 will continue to apply to issuers listed in the STAR segment. Consequently, interim management reports will continue to be issued to the public in accordance with and continuing previous practice making particular reference to the requirements of Article 154-ter paragraph 5 of the Consolidated Financial Law (TUF) applicable prior to the receipt of Directive 2013/50/EU and therefore in conformance with the applicable principles and criteria indicated by the new Article 82-ter of the Issuers' Regulations.*

Partecipazione in STAR segment Events sponsored by Borsa Italiana
