

**BIESSE S.p.A.: THE GENERAL SHAREHOLDERS' MEETING APPROVED:  
- THE RESULTS FOR 2002  
- THE RENEWAL OF THE BOARD OF DIRECTORS AND THE BOARD OF  
STATUTORY AUDITORS  
- THE EXTENSION OF THE BUY-BACK PLAN**

*Pesaro, 29 April 2003* – The ordinary and extraordinary General Shareholders' Meetings of Biesse S.p.A. were held today and approved: during the extraordinary meeting, a change to the corporate by-laws to introduce the position of honorary chairman; during the ordinary meeting, the annual report for 2002, the renewal of the Board of Directors and the Board of Auditors and an extension of the buy-back plan.

The financial statements of Parent Company Biesse S.p.A. for the year ended 31 December 2002, showed that the results for 2002 were greatly affected by the market slowdown that started in Q4 2001, which also negatively influenced the first half of 2002. The market recovery that started in the second half of the year – especially in emerging East European and Middle Eastern markets – and correction actions taken during the year enabled the company to achieve a partial profitability recovery in the last part of the year.

From January to December 2002, turnover amounted to **€236.9 million, up 18.1%** compared to €200.6 million in 2001. It must be noted that this increase was influenced by the merger of subsidiary Intermac S.p.A. during the period. Gross operating profit was €19.6 million (8.5% of the value of production) compared to €22.4 million in 2001 (10.5% of the value of production). Operating profit was €13.0 million (5.6% of the value of production) compared to €17.2 million in 2001 (8.0% of the value of production).

FY 2002 closed with a net loss of **€1.9 million, with an improvement compared to the loss of €6.3 million** at the end of 2001. The result for 2002 was affected by non-recurring items such as the €2 million provision to the restructuring fund for the charges to be borne for the corporate restructuring process started last year and aimed at increasing efficiency and cutting structural costs.

The Group's consolidated annual report for to the period January-December 2002, shows turnover of **€370.7 million, up 4.8%** compared to €353.8 million in 2001. Gross operating profit was €22.3 million (6.1% of the value of production) compared to €25.4 million in 2001 (6.7% of the value of production). Operating profit was €8.0 million (2.2% of the value of production) compared to €13.9 million in 2001 (3.9% of the value of production).

FY 2002 closed with a Group net loss of €5.7 million, thus improving compared to a loss for 2001 amounting to €6.4 million. The above-mentioned non-recurring items also affected this result.

**Consolidated net financial position** improved from a qualitative point of view and showed an expense balance of **€86.0% million**, substantially unaltered compared to December 2001.

Finally, the Shareholders' Meeting also approved a **dividend distribution of €0.09** per share, that will become payable on 17 July 2003 (with detachment as of 14 July 2003). Dividends will be paid drawing from the Parent Company's available reserves.

The plan involves the repurchase, in one or more stages and for an additional period of 18 months following the date of the resolution, of a number of ordinary treasury shares for up to a maximum of 10% of the present share capital, equivalent to 27,393,042 shares.

To date, 932,458 shares have been purchased, or 3.404% of the share capital.

In order to tackle the present negative trend of the reference markets, which is due to a slowdown of the international economic situation, between May and the end of July of this year Biesse S.p.A. and Hsd S.p.A. will start up an ordinary unemployment benefits plan that will involve indirect personnel to a more significant extent. This will enable the Group to achieve the cost-cutting objectives and the ensuing recovered profitability.
